

ENVIRONMENTAL POLICY AND CORPORATE SOCIAL RESPONSIBILITY

Strix, Rakett & Novemberfilm's overarching goal is to reduce carbon emissions in all productions in line with Norway's commitment to the Paris Agreement by 2030. We will measure, reduce, and work with targeted measures at all levels. It should be evident that we are working towards a greener world both in front of and behind the camera.

We are certified as Eco-Lighthouse. As part of our corporate social responsibility, we have committed to a green and sustainable development of our company. We will gradually reduce our carbon footprint and choose sustainable options in all our productions. We will actively work for more environmentally efficient and greener options in the following areas:

Social responsibility to us means making sure all our production and ability to evolve as a company must consider our surroundings, people, environment and society in a long-term perspective. That includes ethical business operations in interaction with our employees, clients, collaborative partners, suppliers, and their suppliers.

In addition to delivering products of high professional value and quality we shall maintain the company's professional reputation by ensuring sustainable behavior and operations.

Our clients can be confident that we incorporate environmental aspects into all our procurements and set ethical standards for both ourselves and our suppliers. We are actively working to uphold environmental standards in accordance EU-directives, as well as with our Eco-lighthouse certification.

These standards are high priority in all our decisions, behaviors and productions, and as a result, our employees, clients and suppliers can trust us to be a reliable and responsible partner.
